

NEW

- + Hydraulic motor extremely simplified (35 vs 96 parts).
- + No metal parts in the motor. Valve activation system with plastic spring.
- + Better reliability and lifetime due to fewer moving parts.
- + Most easy maintenance due to simple design.

The DOSATRON D9 Green Line products were designed to comply with the highest international approved sustainability standards.

DOSATRON®

Because life is powered by water®

IRRIGATION

D9 GREEN LINE

The Fertigation Reference

- + Best fit for tough hydraulic irrigation installations
- + Extremely simple to maintain
- + Highest chemical compatibility
- + Optimized reliability through incredibly optimized design

NEW

D9GL

Water flow: 500 l/h up to 9 m³/h

IRRIGATION

Fruit & Vegetable production

Best fit for tough hydraulic irrigation installations

Resistant even with empty pipes startup.
Overflow safety: automatically restarts after safety stall due to overflow.

Extremely simple to maintain

No tools required.
Most easy repair.

Highest chemical compatibility

No metal parts in the motor.
High chemical compatibility with corrosive products. pH correction / cleaning

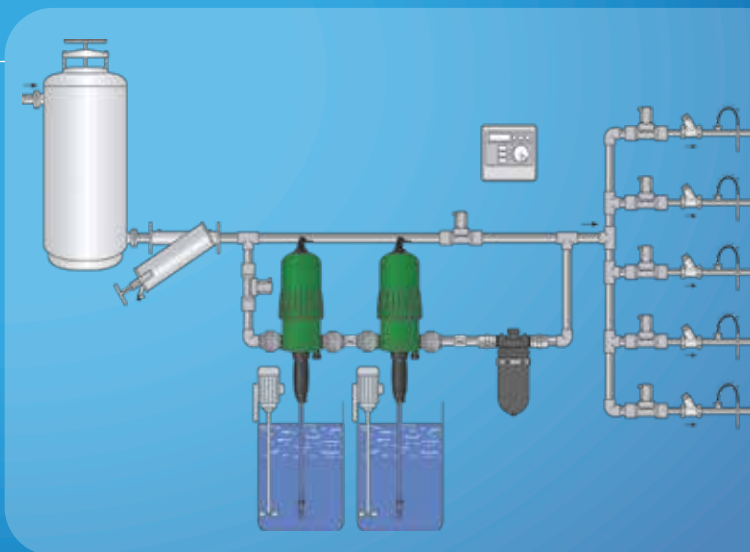

Optimized reliability through incredibly optimized design

Parts number reduced by > 60 % (vs former D8 Unit) : 35 vs 96 parts
